

## E-Commerce Q&A

We're starting a new section here at CommerceStyle. We know that a lot of begginers have questions about setting up shopping carts, ecommerce hosting, merchant accounts and more. So to serve our visitors we thought we'd start a question and answer section, to help out those in need.

You can find the E-Commerce Q&A in the top menu. Simply submit your questions to this email address . Or post a question in the comment section and it will be answered ASAP.

I look forward to reading the questions.
